

2007 CORPORATE SPONSORSHIP PACKAGE

The Building Envelope Solutions sponsorship package offers enhanced brand building for your companies marketing and selling to construction industry professionals. Specifically, it provides a unique opportunity to raise your corporate profile with thousands of architects, builders, building owners, building officials, consultants, contractors, developers, engineers, technologists, technicians, manufacturers, property managers, researchers, specifiers and suppliers.

The recent success of our 1st Building Envelope Solutions conference, which attracted 231 attendees, has prompted a Building Envelope Solutions series of conferences being planned for 2007 in Toronto, Vancouver, and Calgary.

The conferences will focus on cutting-edge information regarding design, construction, maintenance and repair of modern building envelopes. The event's open, inclusive environment encourages attendees to ask questions and stimulates dialogue. Speakers offer relevant solutions by referencing real-world examples and specific case histories. This event is organized by York Communications, the producer of Construct Canada and publisher of the Construction Law News Bulletin.

WHO WILL ATTEND

Architects, builders, building owners, building officials, consultants, contractors, developers, engineers, technologists, technicians, manufacturers, property managers, researchers, specifiers, and suppliers.
